iDware

Card Personalisation SDK

Complete solution for smart card personalisation: for card office operators in large-sized organisations.
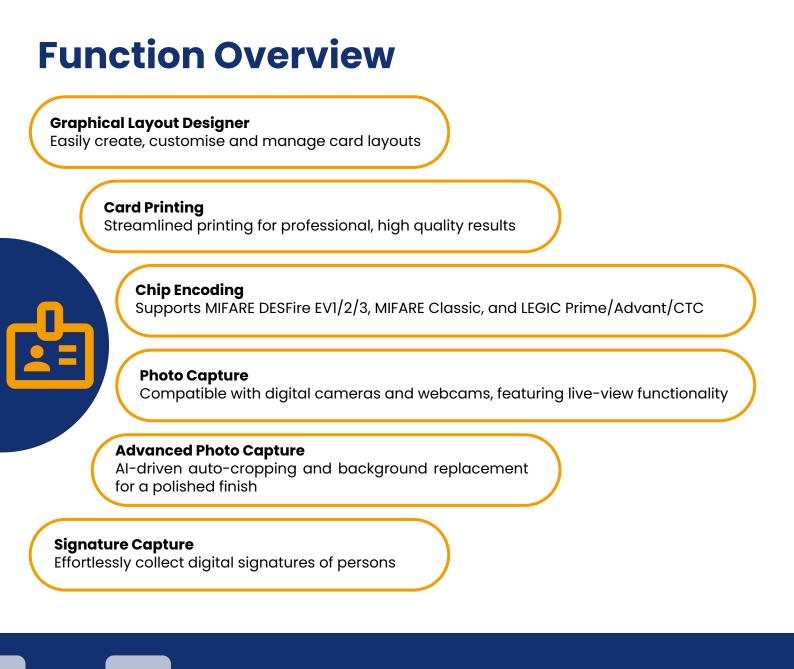

iDware

The ID-ware IDES (ID-ware Enrolment Services) is a powerful, modular Software Development Kit (SDK), offering a complete solution for printing and encoding of cards for operators in the card office.

Does your organisation regularly have to enrol lots of new employees and provide them with encoded cards but wanting to keep the whole process in-house, e.g. in your own card office?

Just rely on our comprehensive and secure card personalisation solution!

With seamless integration into third-party applications, the ID-ware IDES SDK enhances functionality and meets diverse needs thanks to its modular design. It is a fully scalable and flexible solution.

Function Overview

Graphical Layout Designer
Easily create, customise and manage card layouts

Card Printing
Streamlined printing for professional, high quality results

Chip Encoding
Supports MIFARE DESFire EV1/2/3, MIFARE Classic, and LEGIC Prime/Advant/CTC

Photo Capture
Compatible with digital cameras and webcams, featuring live-view functionality

Advanced Photo Capture
AI-driven auto-cropping and background replacement for a polished finish

Signature Capture
Effortlessly collect digital signatures of persons

Just create and manage your cards on your own: It is easy with the ID-ware IDES SDK!

Key Benefits

Streamlined Design Process

Effortlessly create and maintain multiple card layouts with ease

Seamless Personalisation

Seamless processing of complex and dynamic personalisation data

Professional Design

Simplified personalisation workflow due to professional but easy-to-use Graphical Layout Designer

Efficient Maintenance

Manage multiple card designs within a single project file for maximum efficiency and organisation
